

Emergency Contact Information

The following page is an emergency contact sheet, which every person should have on his or her person at a Civil War Reenactment.

One half is kept on your person (enlisted men should carry this in their cartridge box, officers in their coat pocket or pistol holster and civilians in their bonnet/hat or jacket pocket). The other half should be kept with your unit's company clerk, unit captain or other responsible person at that weekend's event.

This information is to be used in an emergency only.
